**INSTRUCTIONS FOR RADIOLOGY EXAMS**

## INSTRUCTIONS FOR RADIOLOGY EXAMS

Thank for choosing St. Luke's Medical Center/Tempe St. Luke's. We strive to provide you with not only a state-of-the-art Imaging Services Department, but with the compassionate quality care you deserve. Below you will find instructions to help you in preparing for your diagnostic exam. If you have any questions about these instructions, please feel free to ask your physician or contact SLMC at (877)5-HEART-0 (877-543-2780) or contact TSL at (480) 784-5605. If you are taking **Glucofophage, Glucovance, or Metformin**, and blood thinners (aspirin) notify our department in advance for special instructions.

### CT/Cat Scan

- Notify your physician if you are allergic to iodine or shell fish prior to scheduling the exam.
- **Abdomen / Pelvis**, (with oral &/or IV contrast):  
Please do not eat or drink after midnight or at least 4-6 hours prior to exam (Brushing teeth is permitted).
- Please pick up oral contrast prior to your exam: contrast can be picked in Radiology Department, 2<sup>nd</sup> Floor of SLMC 8:30am-5:00pm daily. To receive the contrast you must bring your order with you.
- CT's and Angiograms of Head, Neck, Chest, Abdomen, Pelvis, and Extremities **with IV contrast; NPO** for at least 4-6 hours prior to exam.
- **Oral contrast**, please drink contrast 2 hours prior to arrival.

### Exams with IV Contrast

- **Do not take Glucofophage or Metformin** for 48 hour after the exam.
- Patients 55 years of age and over must have labs completed (Creatinine & BUN) within the last 30 days.
- Patients that are being treated for diabetes, renal or cardiovascular disease should have labs completed (Creatinine & BUN) within the last 30 days.
- If results are not available in advance, labs will be drawn day of exam. This could delay your procedure.
- CT's and Angiograms of Head, Neck, Chest, Abdomen, Pelvis, and Extremities **with IV contrast**; Nothing to eat or drink for at least 4-6 hours prior to exam.
- CT's Abdomen and Pelvis for Stone Protocol and ALL CT's without IV or Oral contrast: NO PREP REQUIRED
